

Niloufar Khaefi

I'm an enthusiastic web developer with a strong affinity for JavaScript. I'm particularly passionate about front-end development, where I can leverage my skills to craft modern and user-friendly web applications. As a team player, problem solver, and continuous learner, I'm always eager to take on new challenges and contribute to innovative projects, especially those that utilize React.

Experience

Atomic Learning, Full-stack developer , internship | Mar 2024

As a Frontend Developer, my primary responsibility is crafting the user-facing components of the website. Beyond my core frontend tasks, I have also taken on occasional backend responsibilities to expand my skill set. Currently, I am collaborating with a team of seven in a Scrum framework to develop our new landing page.

Skills: React, Redux toolkit, RTK-query, tailwind css, MongoDB, Node.js
